

Module 3: Assignment 1

Garett Lohner

garettlohner@gmail.com

ITWEB-200-Flex2

Professor Mohammad Azam

Band Website Mood Board

Project lead: Garrett Lohner

Client: Digital Crafts

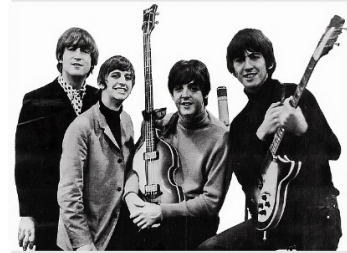

A quick glimpse at the demographic of concert attendees

Demonstrate intimate live performance settings and tight knit fandom

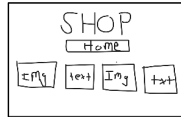

Show off gear and accessories

Module 3

Basic intro page for our fictional shoe selling website, including photos and a nav portion, as well as a quick description

Click the image on the home page to be taken to a selection of shoes, including a link back to home

Customers may then return home using the nav, and click on the about tab, also located in the nav

The about page will include an image of our cruelty free vegan luxury shoes, and a quick snippet of our company policies

After returning home, the customer should also be able to access the shop via hyperlinks in the home pages text blurb

Having multiple ways to access the shop will increase the likelihood of a customer making a purchase of our genius product
